

Kapil Karda

kkarda77@gmail.com (+91-998-110-1934 / +1-858-726-9115)

Senior Developer/Tech-Lead

Summary:

- Result-driven IT Professional with 6+ years of extensive experience in designing & developing user experiences of Internet/Intranet applications using HTML5, HTML, XHTML XML CSS, CSS3, PHP (CodeIgniter, WordPress, Laravel), Node.js, JavaScript, jQuery, Angular.js, React.js, Ionic Framework, React Native, Flutter and Meeting W3C standards.
- Good knowledge of latest version of object-oriented JavaScript Libraries like Angular.js 1/2/4/7/8, Node.js, Backbone.js, Bootstrap, jQuery, React.JS, React Native and Dojo toolkit.
- Expert in hybrid mobile app development technologies like Cordova/PhoneGap, IONIC Framework, React Native, Flutter etc.
- Experience with Responsive Web Design patterns and Bootstrap.
- Expertise in designing and developing User Experiences for Web Applications using Web Authoring tools such as Adobe Dreamweaver CS3, Adobe Illustrator, and Adobe Flash.
- Expertise in building strong websites conforming Web 2.0 standards using jQuery, Angular 2/4/6/7, React.JS, HTML5, XHTML, DHTML & CSS3 to develop valid code and table-free sites.
- Extensive professional experience of Healthcare web-based applications.
- Proven track record in Graphic and User Experience, Design and Transforming Web/Graphic Designers static prototypes into hand-coded HTML, specifically emphasizing accuracy and efficiency & adhering to W3C-established web standards with respect to maintaining cross-browser/cross-platform compatibility and delivering final page templates, including optimized images.
- Skilled in architecting and automating the build process for production, using task runners or scripts
- Proficient documenting the code inline using JS doc or other convention.
- Experience in developing both front end and back end applications using NodeJS, HTML, HTML5, CSS, CSS3, JavaScript, Angular.js 1.0x, Angular.js 2.0, React JS, CodeIgniter, Laravel, Express.js, SAAS, jQuery, and Ajax.
- Good experience on various JavaScript Frameworks depending on the use case (e.g. jQuery, React JS, Angular JS).
- Expert in working with cutting edge front-end technologies/ framework and libraries like jQuery, Prototype, (X)HTML, DHTML, OO JavaScript, JSON, DOM, CSS, XML/XSLT, AJAX.
- Expert in SQL database like MySQL, Postgres, MSSQL, NoSQL like MongoDB and Cached database like Redis.
- Excellent working knowledge and thorough exposure on compatibility issues with different versions of browsers like IE, Mozilla Firefox, and Chrome.

Work Experience:

Engineer Master Solutions Pvt. Ltd.

Oct 2015- Present

Senior Full Stack Developer – Tech Lead

Responsibilities:

- Created React for reusable components (multi-field form elements, background file uploads).
- Worked on common stack navigation and tabbed navigation patterns on both IOS and Android using react--navigation.
- Worked closely with internal clients to define business objectives, project scope, solution space and design/development approach for various knowledge research applications.
- Define CI/CD process for multiple businesses the company owns using AWS Code Pipeline, Code Commit and Code Deploy
- Created Directives, Services, Filters using Angular JS with Typescript.
- Used other AWS offerings such as Lambda, IAM, Elastic Beanstalk, Elastic Cloud, Elastic Load Balancer etc.
- Created custom services, directives and Imported Observables from RXJS and built custom observables.
- Involved in Web & Mobile Projects Work.
- Developed Single Page applications using AngularJS using components, directives using TypeScript

- Implemented front-end with Angular.js, React.js, WebSocket's, TypeScript. Performance optimization.
- Implemented web system using new technologies such as WebSocket, Less and Playground using GraphQL.
- Implemented action, reducer and middleware for application.
- Experience in building E-Commerce applications.
- Outline the goals for research and development.
- Creating timelines for the development and deployment of all technological services.
- Acting as a mentor/tech lead to team members.
- Managing technology budgets and time frames.
- Staying on top of technology trends and developments.
- Ensuring all technology practices adhere to regulatory standards.
- Fully Agile, bi-weekly Sprints and daily Stand-ups to discuss the development progress.
- Involved in documenting the details related to Changes occurring in the system, following the Quality Processes.
- Worked on GIT, GitHub, Bitbucket, Trello, Jira, Gitlab versioning tools.
- Used JIRA to keep track of bugs to reduce downtime, increase productivity, and Communication.

Environment:

- **Backend:**
 - Node.js (Express.js/Prisma.io/Moleculer.Services- ORM)
 - PHP(CodeIgniter/WordPress/Laravel)
 - Python (Django/Flask)
- **Frontend:**
 - HTML5/CSS3/JavaScript/jQuery
 - Cordova/PhoneGap
 - Angular, IONIC
 - React Native, React.js
 - Flutter
- **AI tools:**
 - Tensor flow API
 - Dialog flow API
 - Basic Knowledge of Unity
 - Good hand in SVN like GitHub/Bitbucket/GitLab

Zeal Mobile Publicity May 2014 – Aug 2015 Software Developer

Responsibilities:

- Constantly participated in Idealization meetings to share ideas.
- Involved in development of front-end & back-end web applications using HTML5, CSS3, JavaScript, Angular JS, NodeJS, ReactJS, PHP, CodeIgniter, JSON and Bootstrap
- Used Angular router to deploy the routing structure, created nested views by rendering various Angular components.
- Used Angular UI-routers to render different templates and ng-repeat to render the data from back end.
- Define CI/CD process for multiple businesses the company owns using AWS Code Pipeline, Code Commit and Code Deploy
- Created Directives, Services, Filters using Angular JS with Typescript.
- Used other AWS offerings such as Lambda, IAM, Elastic Beanstalk, Elastic Cloud, Elastic Load Balancer etc.
- Created custom services, directives and Imported Observables from RXJS and built custom observables.
- Involved in Web & Mobile Projects Work.
- Developed Single Page applications using AngularJS using components, directives using TypeScript
- Implemented front-end with Angular.js, React.js, WebSocket's, TypeScript. Performance optimization.
- Implemented web system using new technologies such as WebSocket, Less and Playground using GraphQL.
- Implemented action, reducer and middleware for application.
- Created services to consume REST API and to communicate between components using Dependency Injection.

- Worked on Cross-Browser compatibility and fixed the bugs for different browsers, using Chrome developer tools and Firebug.
- Stored dependencies using NPM and GIT for version control.
- Validated data coming from users, using JavaScript and performed unit testing of the application using JEST and used enzyme utility tool.
- Worked in Agile/Scrum based environment to accomplish the project.
- Extensively used tools like Webpack to uglify/minify JavaScript files, compile Sass files to CSS.
- Used Bootstrap library to quickly build project UI's and used AngularJS framework to associate HTML elements to models.
- Architected and developed a mobile web application publishing framework component library based on AngularJS.
- Developed a single page, mobile-first, cross-device/cross-browser web application for real-time location sharing utilizing AngularJS, JavaScript API.
- Perform adequate unit testing and provide automated unit test cases.

Environment:

AngularJS, AWS Angular 2/4/7, ReactJS, NodeJS, HTML 4/5, CSS 2/ 3, JavaScript, jQuery, Bootstrap, Ajax, JSON, XML, Adobe Creative Suite, Dreamweaver, Eclipse.

Project Details:

❖ Web Applications:

➤ Project: Edupare

Description: Offer Specific Information For Students Interested In UG/PG Courses In India (Shiksha.Com) And Abroad (Studyabroad.Shiksha.Com) Across The Most Popular Educational Streams – Management; Science & Engineering; Banking & Finance; Information Technology; Animation, VFX, Gaming & Comics; Hospitality, Aviation & Tourism; Media, Films & Mass Communication; Design; Medicine, Beauty & Health Care; Retail; Arts, Law, Languages & Teaching; And Test Preparation.

Technologies:

- Used Angular 5.2 and Angular materials as the front-end framework, with Typescript, CSS3, and HTML5 as the main programming languages.
- Developed the full stack web application with Angular5, PHP((CodeIgniter) with MySQL, JavaScript, jQuery.
- Worked on end-to-end design, setup, integration and maintenance of web application.
- Developed the various feature of the application using front end technologies & back end technologies like Angular 5, PHP(CodeIgniter) with MySQL database, JavaScript, jQuery.
- Worked closely with the end users / business analysts to gather the requirements of the project and was responsible for the delivery of technical design document and implementation.

➤ Project: Hubbers

Description: Hubbers is a community of makers that create, develop, produce and sell innovative or not so innovative products through the power of the crowd. Hubbers allows anyone to bring an innovative product idea from concept to successful profitable business with minimum resources.

Technologies:

- Design and developed web pages using ReactJS, NodeJS, Express.js, MongoDB, HTML, CSS, JavaScript, jQuery, Bootstrap.
- Worked on bug fixing on functionality, performance and designing issues with JavaScript.
- Developed dynamic responsive web application by integrating AngularJS with Bootstrap which is further integrated with web services.
- Contacted with different customer for their requirements and modified code as the customer needs.

➤ **Project: Ondoor**

Description: Ondoor Concepts Private Limited is an e-commerce venture that provides food staples and household items like Grocery, vegetables, fruits, household items, personal care products and anything needed in a household on day to day basis at your doorstep.

Technologies:

- Developed the full stack web application with PHP, jQuery, Ecommerce, OpenCart, JavaScript.
 - Developed the various feature of the application using front end technologies & back end technologies.
 - Successfully executed all the test cases and fixed any bugs/issues identified during the test cycles.
 - Participated in daily meeting for enhancing the features for the portal.
 - Participated in Code review and Quality Assurance.
-

➤ **Project: DailyWale**

Description: DailyWale arranges the daily need items in a single package on best available prices that to on-time Milk, Organic Cow Milk, Bread, Curd, Flowers, Magazine and more. We organize the market around a streamlined process of project management to revolutionize the way projects are designed, planned and executed.

Technologies:

- Involved in using React JS components, Forms, Events, Keys, Router, Animations and Flux concept.
 - Preparation and review of Unit Test Plan, Unit Testing, Test Results review and other quality related work.
 - Developed the full stack web application with ReactJS, NodeJS, ExpressJS, MongoDB.
 - Involved in building stable React components and stand-alone functions to be added to any future pages.
 - Worked on bug fixing on functionality, performance and designing issues with JavaScript.
-

➤ **Project: RTI Guru**

Description: RTI Guru is the platform on which you can file your RTI online on the nominal charge and sanctioned government fees within a few minutes, addressed to the ideal PIO and the fee is also paid on your behalf by adopting the right and legal payment method.

Technologies:

- Involved in using CodeIgniter, jQuery, Bootstrap, Social Media APIs.
 - Preparation and review of Unit Test Plan, Unit Testing, Test Results review and other quality related work.
 - Developed the full stack web application with ReactJS, NodeJS, Express.js, MongoDB.
 - Involved in building stable React components and stand-alone functions to be added to any future pages.
 - Worked on bug fixing on functionality, performance and designing issues with JavaScript.
-

❖ **Mobile Applications (Android & IOS):**

➤ **Project: Hubbers**

Description: Hubbers app consists a global community of creatives working on product development from idea to market. Find experts to help you to make your product a reality from design through project management, and factory production.

Technologies:

- Involved in using React Native
 - Worked on bug fixing on functionality, performance and designing issues
 - Participated in daily meeting for enhancing the features of the application.
 - Participated in Code review and Quality Assurance.
 - Using Design, created UI
 - Worked on API Integration, done validations, implemented authentication.
-

➤ **Project: Mahally**

Description: Mahally is a First Emirati Marketplace for products sold by SME's and home-based sellers. User can explore Products from Home and SME sellers:

- * Perfumes & Oud
- * Fashion - Men & Women
- * Beauty Products.

Technologies:

- Involved in using React Native
 - Participated in Code review and Quality Assurance.
 - Using Design, created UI
 - Worked on bug fixing on functionality, performance and designing issues
 - Participated in daily meeting for enhancing the features.
 - Worked on API Integration, done validations, implemented authentication.
-

➤ **Project: ClickIPO**

Description: Get access to IPO and Secondary Offerings, commission free. ClickIPO allows everyday/individual investors to discover, follow, share and even participate in public offerings using a supported brokerage account. Service providers can be easily searched within a mile radius, search section or via the map with filters like profession and price range, allowing you to stay connected wherever you are.

Technologies:

- Using Design, created UI
 - Worked on bug fixing on functionality, performance and designing issues
 - Worked on API Integration, done validations, implemented authentication
 - Involved in using React Native
 - Participated in Code review and Quality Assurance.
 - Participated in daily meeting for enhancing the features.
-

➤ **Project: MMA 2.0**

Description: This application will allow a repossession company agent using the My Recovery System to access their case information. It supports all the repossession activities for the agent in the field to include: Recovery, Condition Reports, Pictures, Updates, Routing, Searching company cases, Automated updates using Geofence and more.

Technologies:

- Participated in Code review and Quality Assurance.
 - Participated in daily meeting for enhancing the features.
 - Using Design, created UI
 - Worked on bug fixing on functionality, performance and designing issues
 - Worked on API Integration, done validations, implemented authentication
 - Involved in using React Native
-

➤ **Project: Odoor**

Description: An online supermarket where customers can purchase - Grocery, vegetables, fruits, household items, personal care products and anything needed in a household on day to day basis.

Technologies:

- Involved in using Ionic
 - Participated in Code review and Quality Assurance.
 - Participated in daily meeting for enhancing the features.
 - Using Design, created UI
 - Worked on bug fixing on functionality, performance and designing issues
 - Worked on API Integration, done validations, implemented authentication
-

➤ **Project: Dailywale**

Description Dailywale arranges the daily need items in a single package on best available prices that to on-time. Milk, Organic Cow Milk, Bread, Curd, Flowers, Magazine and more..

Technologies:

- Participated in daily meeting for enhancing the features.
 - Worked on API Integration, done validations, implemented authentication
 - Using Design, created UI
 - Involved in using Ionic
 - Participated in Code review and Quality Assurance.
 - Worked on bug fixing on functionality, performance and designing issues
-

➤ **Project: Maalgaadi**

Description: MaalGaadi cater intra-city transportation needs of customers by connecting them to partner drivers. We provide a web-based platform to combat the global problem of cargo transportation by targeting the intra-city segment in a mutually beneficial and convenient way. MaalGaadi is a first of its kind in load picking and delivering throughout the city boundaries with an efficient and timely live tracking of your load. We cater variety in sizes and types of goods for the loading process, ranging from Tata Ace to all loading trucks, spanning across the city.

Technologies:

- Involved in using Flutter
 - Participated in daily meeting for enhancing the features.
 - Worked on bug fixing on functionality, performance and designing issues
 - Using Design, created UI
 - Participated in Code review and Quality Assurance.
 - Worked on API Integration, done validations, implemented authentication
-

➤ Project: Playgo11

Description: PlayGo11 is India's Biggest Sports Game, users playing Fantasy Cricket, Football with each other. we have the objective of giving fantasy gaming fans a platform where they just don't earn money using their sports knowledge and skills. PlayGo11 has the objective of giving fantasy gaming fans a platform where they just don't earn money using their sports knowledge and skills, but also enhance their skill level to play fantasy games.

Technologies:

- Worked on bug fixing on functionality, performance and designing issues
 - Using Design, created UI
 - Participated in daily meeting for enhancing the features.
 - Participated in Code review and Quality Assurance.
 - Worked on API Integration, done validations, implemented authentication
 - Involved in using Flutter
-

➤ Project: TikIndia

Description: TikIndia is a free Short Video and Social Platform based of India. It is designed for people to showcase their innovative videos online with our theme of light humor. TikIndia provides an easy and seamless interface for users to create, edit and share their videos, and at the same time browse through a library of top videos across the globe.

Technologies:

- Using Design, created UI
- Participated in Code review and Quality Assurance.
- Involved in using Flutter
- Participated in daily meeting for enhancing the features.
- Worked on bug fixing on functionality, performance and designing issues
- Worked on API Integration, done validations, implemented authentication

Personal Details:

- DOB: 30/03/1993
- Passport No.: N7405941
- Interests: Learning new Technologies, AI, Server Automation, Handling core functionality
- Nationality: INDIAN
- Marital Status: Single
- Contact: +91 – 9981101934
- Address: 106/3 Meghdoot Nagar, Behind Hotel Marriot, Indore (Madhya Pradesh), India
